## LIQUID CRYSTAL TELEVISION

### **ENGLISH**

## **OPERATION MANUAL**

#### IMPORTANT:

To aid reporting in case of loss or theft, please record the TV's model and serial numbers in the space provided. The numbers are located at the rear of the TV.

Model No.:		
Serial No.:		

U.S.A. ONLY

## IMPORTANT INFORMATION

**WARNING:** TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

#### CAUTION

RISK OF ELECTRIC SHOCK. DO NOT OPEN.

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK,
DO NOT REMOVE COVER (OR BACK).
NO USER-SERVICEABLE PARTS INSIDE.
REFER SERVICING TO QUALIFIED SERVICE
PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within a triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

## IMPORTANT INFORMATION

**WARNING:** FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly approved by the manufacturer could void the user's authority to operate this equipment.

U.S.A. ONLY

**CAUTION:** TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

"Note to CATV system installer: This reminder is provided to call the CATV system installer's attention to Article 820-40 of the National Electrical Code that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical."

This product utilizes tin-lead solder, and fluorescent lamp containing a small amount of mercury. Disposal of these materials may be regulated due to environmental considerations. For disposal or recycling information, please contact your local authorities or the Electronic Industries Alliance: www.eia.org

## DEAR SHARP CUSTOMER

Thank you for your purchase of the Sharp LCD Color TV product. To ensure safety and many years of trouble-free operation of your product, please read the Safety Precautions carefully before using this product.

# **IMPORTANT SAFETY PRECAUTIONS**

Electricity is used to perform many useful functions, but it can also cause personal injuries and property damage if improperly handled. This product has been engineered and manufactured with the highest priority on safety. However, improper use can result in electric shock and/or fire. In order to prevent potential danger, please observe the following instructions when installing, operating and cleaning the product. To ensure your safety and prolong the service life of your LCD color TV product, please read the following precautions carefully before using the product.

- Read instructions—All operating instructions must be read and understood before the product is operated.
- Keep this manual in a safe place—These safety and operating instructions must be kept in a safe place for future reference.
- Observe warnings—All warnings on the product and in the instructions must be observed closely.
- Follow instructions—All operating instructions must be followed.
- Attachments—Do not use attachments not recommended by the manufacturer. Use of inadequate attachments can result in accidents.
- Power source—This product must operate on a power source specified on the specification label. If you are not sure of the type of power supply used in your home, consult your dealer or local power company. For units designed to operate on batteries or another power source, refer to the operating instructions.
- Power cord protection—The power cords must be routed properly to prevent people from stepping on them or objects from resting on them. Check the cords at the plugs and product.
- If the AC adapter is misplaced or needs to be replaced, obtain the same type of adapter from a SHARP service center or your dealer.
- Overloading—Do not overload AC outlets or extension cords.
   Overloading can cause fire or electric shock.
- Entering of objects and liquids—Never insert an object into the product through vents or openings. High voltage flows in the product, and inserting an object can cause electric shock and/or short internal parts. For the same reason, do not spill water or liquid on the product.
- Servicing—Do not attempt to service the product yourself. Removing covers can expose you to high voltage and other dangerous conditions. Request a qualified service person to perform servicing.
- Repair—If any of the following conditions occurs, unplug the power cord from the AC outlet, and request a qualified service person to perform repairs.
  - a. When the power cord or plug is damaged.
  - b. When a liquid was spilled on the product or when objects have fallen into the product.
  - c. When the product has been exposed to rain or water.
  - d. When the product does not operate properly as described in the operating instructions. Do not touch the controls other than those described in the operating instructions. Improper adjustment of controls not described in the instructions can cause damage, which often requires extensive adjustment work by a qualified technician.
  - e. When the product has been dropped or damaged.
  - f. When the product displays an abnormal condition. Any noticeable abnormality in the product indicates that the product needs servicing.
- Replacement parts—In case the product needs replacement parts, make sure that the service person uses replacement parts specified by the manufacturer, or those with the same characteristics and performance as the original parts. Use of unauthorized parts can result in fire, electric shock and/or other danger.
- Safety checks—Upon completion of service or repair work, request the service technician to perform safety checks to ensure that the product is in proper operating condition.
- Wall or ceiling mounting—When mounting the product on a wall or ceiling, be sure to install the product according to the method recommended by the manufacturer.
- Polarization—This AC adapter may be equipped with a polarized alternating current line plug (a plug having one blade wider than the other). This plug will fit into the power outlet only one way. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the plug. If the plug should still fail to fit, contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the polarized plug.

# **IMPORTANT SAFETY PRECAUTIONS (Continued)**

Cleaning—Unplug the power cord from the AC outlet before cleaning the product. Use a damp cloth to clean the product. Do not use liquid cleaners or aerosol cleaners.

Water and moisture—Do not use the product near water, such as bathtub, washbasin, kitchen sink and laundry tub, swimming pool and in a wet basement.

Stand—Do not place the product on an unstable cart, stand, tripod or table. Placing the product on an unstable base can cause the product to fall, resulting in serious personal injuries as well as damage to the product. Use only a cart, stand, tripod, bracket or table recommended by the manufacturer or sold with the product. When mounting the product on a wall, be sure to follow the manufacturer's instructions. Use only the mounting hardware recommended by the manufacturer.

When relocating the product placed on a cart, it must be moved with utmost care. Sudden stops, excessive force and uneven floor surface can cause the product to fall from the cart.

■ Ventilation—The vents and other openings in the cabinet are designed for ventilation. Do not cover or block these vents and openings since insufficient ventilation can cause overheating and/or shorten the life of the product. Do not place the product on a bed, sofa, rug or other similar surface, since they can block ventilation openings. This product is not designed for built-in installation; do not place the product in an enclosed place such as a bookcase or rack, unless proper ventilation is provided or the manufacturer's instructions are followed.

■ The LCD panel used in this product is made of glass. Therefore, it can break when the product is dropped or applied with impact. Be careful not to be injured by broken glass pieces in case the LCD panel breaks.

■ Heat sources—Keep the product away from heat sources such as radiators, heaters, stoves and other heat-generating products (including amplifiers).

■ The LCD panel is a very high technology product with 921,600 thin film transistors, giving you fine picture details.

Occasionally, a few non-active pixels may appear on the screen as a fixed point of blue, green or red. Please note that this does not affect the performance of your product.

# **IMPORTANT SAFETY PRECAUTIONS (Continued)**

■ If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges. Section 810 of the National Electrical Code provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

# EXAMPLE OF ANTENNA GROUNDING AS PER NATIONAL ELECTRICAL CODE

■ For added protection for this television equipment during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to the equipment due to lightning and power-line surges.

An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

## **Using the Remote Control**

■ Use the remote control by pointing it towards the remote sensor window on the main unit. Objects between the remote control and sensor window may prevent proper operation.

#### Cautions regarding use of remote control

- Do not expose the remote control to shock. In addition, do not expose the remote control to liquid, and do not place in an area with high humidity.
- Do not install or place the remote control under direct sunlight. The heat may cause deformation of the unit.
- The remote control may not work properly if the remote sensor window of the main unit is under direct sunlight or strong lighting. In such case, change the angle of the lighting or LCD TV set, or operate the remote control closer to the remote sensor window.

#### **Batteries for the Remote Control**

Before using the LCD TV set for the first time, install two ("AAA" size, UM/SUM-4) batteries (supplied). When the batteries become depleted and the remote control fails to operate, replace the batteries with new ("AAA" size, UM/SUM-4) batteries.

1 Open the battery cover.

Slide the cover while pressing the (▼) part. 2 Insert two ("AAA" size, UM/ SUM-4) batteries.

■ Position the positive and negative ends of the batteries as indicated in the compartment

3 Close the battery cover.

■ Engage the claw on the cover into the battery housing and slide shut.

## **⚠** Caution!

#### **Cautions regarding batteries**

Improper use of batteries can result in chemical leakage and/or explosion. Be sure to follow the instructions below.

- Place batteries with their terminals corresponding to the (+) and (-) indications.
- Different types of batteries have different characteristics. Do not mix batteries of different types.
- Do not mix old and new batteries. Mixing old and new batteries can shorten the life of new battery and/or cause the old battery to leak chemicals.
- Remove batteries when they become weak.
   Chemicals that leak from batteries can cause a rash. If chemical leakage is found, wipe with a cloth
- The batteries supplied with the product may have a shorter life expectancy due to storage conditions.
- If the remote control will not be used for an extended period of time, remove the batteries from the remote control.

## PREPARATION (Continued)

#### **Power Connection**

#### NOTE >

- Use a commercially available AC plug adapter, if necessary, depending on the design of the wall outlet.
- Always turn the MAIN POWER switch of the LCD TV set to off when connecting the AC adapter.
- Always unplug the AC adapter from the product and power outlet when not using for a long period of time.

#### **Antenna Connection**

#### **CABLE TV (CATV) CONNECTION**

- A 75-ohm coaxial cable connector is built into the set for easy hookup. When connecting the 75ohm coaxial cable to the set, screw the 75-ohm cable to the ANT. terminal.
- · Some cable TV companies offer "premium pay channels". Since the signals of these premium pay channels are scrambled, a cable TV converter/descrambler is generally provided to the subscriber by the cable TV company. This converter/descrambler is necessary for normal viewing of the scrambled channels. (Set your TV to channel 3 or 4, typically one of these channels is used. If this is unknown, consult your cable TV company.) For more specific instructions on installing cable TV, consult your cable TV company. One possible method of utilizing the converter/descrambler provided by your cable TV company is explained below.

Please note: An RF switch provided with two inputs (A and B) is required (not supplied).

"A" position on the RF switch (not supplied): You can view all unscrambled channels by using the TV's channel keys.

"B" position on the RF switch (not supplied) : You can view the scrambled channels via the converter/ descrambler by using the converter's channel keys.

Consult your SHARP Dealer or Service Center for the type of splitter, RF switch or combiner that might be required.

## **PREPARATION** (Continued)

## **Antenna Connection (Continued)**

#### ANTENNAS

 The antenna requirements for good color television reception are more important than those for black & white television reception. For this reason, a good quality outdoor antenna is strongly recommended.
 The following is a brief explanation of the type of connections that are provided with the various antenna systems.

- A 75-ohm system is generally a round cable with F-type connector that can easily be attached to a terminal without tools (not supplied).
- A 300-ohm system is a flat "twin-lead" cable that can be attached to a 75-ohm terminal through a 300-75-ohm adapter (not supplied).

#### **OUTDOOR ANTENNA CONNECTION**

- Use one of the following two diagrams if you connect an outdoor antenna.
   A: Using a VHF/UHF combination outdoor antenna.
   B: Using separate VHF and/or UHF outdoor antennas.
- Connect the outdoor antenna cable lead-in to the ANT. terminal on the rear of the TV set.

## FRONT AND REAR CONTROL OPTIONS

## Main unit (front view)

#### NOTE

- TV/VIDEO, CH (~)/(^), VOL (-)/(+) and MENU on the main unit have the same functions as the same buttons on the remote control. Basically, this operation manual provides a description based on operation with the remote control.
- The outer dimensions and placement of buttons, etc. may slightly differ between the LC-13E1U and LC-15E1U.
   However, the basic operations are the same.

# FRONT AND REAR CONTROL OPTIONS (Continued)

Main unit (rear view)

## FRONT AND REAR CONTROL OPTIONS (Continued)

## **Removing the Back Cover**

- Before connecting a connection cord into the rear terminal, remove the back cover. Push in the tab and pull out the back cover carefully.
- To mount the cover, insert the 2 hooks on the bottom of the cover into the cabinet and press on the upper part of the back cover until the tab locks in place with a click.

## **Listening with Headphones**

■ Plug the headphone mini-plug into the HEADPHONE jack located on the rear of the TV set.

#### NOTE >

- Headphones are not included in the supplied accessories.
- No sound will be heard from the main unit speakers when a headphone mini-plug is connected into the HEADPHONE jack.

### **EZ SETUP during the First Power On**

#### Control section of main unit

Please perform the following instructions before you press **MAIN POWER**.

- (1) Insert the batteries into the remote control. (See page 8.)
- (2) Connect the antenna cable to the TV set. (See page 10.)
- (3) Connect the AC adapter to the DC input terminal of the product and plug in the AC cord to the wall outlet. (See page 9.)
- Press MAIN POWER, located on the upper side of the main unit, to turn on the TV. The SELECT LANGUAGE mode will be displayed.
- 2 Press ▲/▼ to select "ENGLISH", "ESPAÑOL (SPANISH)" or "FRANCAIS (FRENCH)".
- **3** Press **◄/▶** to access EZ SETUP mode.
- 4 Press ▶.

If you want to stop the EZ SETUP process once it has started, press ◀ and it will be canceled. If you want to SET UP again, please refer to pages 27 and 28 on SET UP.

#### To cancel EZ SETUP

Press ◀.

**5** Once EZ SETUP is completed, the lowest channel number memorized will be displayed.

2

#### NOTE >

- Do not let the EZ SETUP screen display unattended for a long time.
- If EZ SETUP does not memorize all the channels in your region, please refer to pages 27 and 28 for more information on manually memorizing the channels using CHANNEL SETTING.
- It may be difficult to PRESET when the broadcasting signals are weak, the channel cycle frequency is incorrect or the frequency jamming is occurring around the area. Please refer to pages 27 and 28 for more information on manually memorizing channels using CHANNEL SETTING.

## REMOTE CONTROL

## **BASIC OPERATION**

This product is factory set to comply with the TV broadcasting system in the United States. For Brazil, Argentina and Uruguay, set the color system according to the country before using this product by following the table below.

The VIDEO INPUT mode is compatible with color systems worldwide and is automatically set.

Country	TV broadcasting	Factory setting	User setting	
Country	system	TV	Video	TV
U.S.A.	Color: NTSC TV ch: US ch	NTSC (N358) US ch	World Multi Auto System	Not required or N/A
Canada, Mexico,	Color: NTSC	NTSC (N358)	World Multi	Not required or N/A
Latin America	TV ch: US ch	US ch	Auto System	
Brazil	Color: PAL-M	NTSC (N358)	World Multi	Set color system to
	TV ch: US ch	US ch	Auto System	PAL-M (see page 25)
Argentina,	Color: PAL-N	NTSC (N358)	World Multi	Set color system to
Uruguay	TV ch: US ch	US ch	Auto System	PAL-N (see page 25)

The World Multi Auto System is compatible with all color systems indicated below.

- (1) N358 N443
- PAL PAL-M 5 PAL-N 6 SECAN
- SECAM (7) PAL-60

# **BASIC OPERATION (Continued)**

## **Turning on POWER**

#### Control section of main unit

- Press MAIN POWER, located on the upper side of the main unit, to on.
- The POWER indicator instantaneously changes from red to green and the main unit is turned on.

#### NOTE

 The input mode indication disappears after several seconds.

## Switching TV/VIDEO [AV1/AV2/COMPONENT/TV] Modes

- 1 Turn on the power of the connected video equipment.
- Press TV/VIDEO and select the applicable input source. The screen displays AV1, AV2, COM-PONENT or TV mode each time TV/VIDEO is pressed.

#### NOTE

- The AV input mode indication remains for 3 seconds.
- AV1: Video equipment connected to the AV1: Input terminals.
   An S-Video input terminal is additionally provided for the AV1 input. If both the S-Video terminal and normal video terminals are connected with cables, the S-Video input terminal takes priority.
- AV2: AV2 mode is used to adjust the preset settings and IN or OUT can be selected. AV2 indication is not displayed when OUT is selected. (For details on setting AV2-IN/OUT, see page 26.)
- COMPONENT:

Video equipment connected to the COMPONENT input terminals.

## **BASIC OPERATION (Continued)**

#### **Sound Volume**

1 Press VOL (+) to increase the sound volume. The segment of the indicator increases.

VOLUME 50

2 Press VOL (-) to decrease the sound volume. The segment of the indicator decreases.

VOLUME			

#### To mute the sound

- Press MUTE to temporarily turn off the sound. The MUTE mark x is displayed for 4 seconds.
- Press MUTE or VOL (+)/(-) to turn the sound back to the previous level. The mute function is automatically turned off when any of the following buttons are pressed: POWER, VOL (+)/(-) or MTS.

VOLUME

**□**%

### To select MTS (Multi ch TV Sound)

- 1 Press MTS to display the MTS screen.
- 2 Press MTS to select the MTS settings.

STEREO: stereo audio

SAP: second audio program MONO: monophonic audio

2

©\*STEREO <ON AIR
SAP
MONO

#### NOTE >

 <ON AIR appears when a STEREO or SAP broadcast is being aired.

## **ON/OFF Standby**

#### To turn off the LCD TV

Press **POWER** on the remote control. The POWER indicator will turn red.

#### To turn the LCD TV back on

Press **POWER** again. The POWER indicator will turn green.

## **BASIC OPERATION (Continued)**

## **Changing the Channels**

Changing channels by using Channel Select on the remote control

• This LCD TV set allows you to select up to 125 channels (1 to 125). To select a channel, enter a 2-or 3-digit number.

To select a 1- or 2-digit channel number (e.g., Channel 5):

Complete the following procedure within 4 seconds.

- 1 Press the ① button.
- 2 Press the ⑤ button.

#### NOTE >

 When selecting a 1-digit channel number, do not fail to press the ① button first.

To select a 3-digit channel number (e.g., Channel 115):

Complete the following procedure within 4 seconds.

- **1** Press the @ button.
- 2 Press the ① button.
- 3 Press the ⑤ button.

 The 3-digit channel number can be selected only when the receiving mode is set to CABLE in CH-SETTING. (For details on setting the receiving mode, see page 27.)

#### Changing channels with CH ( $\wedge$ )/( $\vee$ ) on the remote control

Air Press **CH** (^) and the channels change in the order shown below:

 $2 \rightarrow 3 \rightarrow \ldots \rightarrow 68 \rightarrow 69 \rightarrow 2 \rightarrow 3 \rightarrow \ldots$ 

Press  $CH(\checkmark)$  and the channels change in the order shown below:

 $3 \rightarrow 2 \rightarrow 69 \rightarrow 68 \rightarrow \ldots \rightarrow 3 \rightarrow 2 \rightarrow \ldots$ 

Cable Press CH (^) and the channels change in the order shown below:

 $1 \rightarrow 2 \rightarrow 3 \rightarrow \ldots \rightarrow 125 \rightarrow 1 \rightarrow 2 \rightarrow 3 \rightarrow \ldots$ 

Press **CH** ( $\checkmark$ ) and the channels change in the order shown below:

 $3 \rightarrow 2 \rightarrow 1 \rightarrow 125 \rightarrow \ldots \rightarrow 3 \rightarrow 2 \rightarrow 1 \rightarrow \ldots$ 

## **SELECTING MENU ITEMS**

### **Selecting Menu Items**

 This LCD TV set allows you to adjust the various settings using the menu screen. Select the desired menu item by following the steps below and then refer to the indicated page for details.

## **Adjusting the SLEEP TIMER Settings**

You can set the SLEEP TIMER to automatically turn off the TV.

#### **Directly setting the SLEEP TIMER**

DISPLA (MENU) **SLEEP** 1 2 (3) (4) (5) (6)

#### NOTE >

- TINT is displayed only when N358 or N443 is selected.
- In BLUE SCREEN, VIDEO ADJUST settings displayed in magenta cannot be selected.
- Selecting RESET will return all settings to the factory settings. (See page 24.)
- TV mode

This product is factory set to comply with the color system in the United States (NTSC-N358). For Brazil (PAL-M), Argentina (PAL-N) or Uruguay (PAL-N), adjust the color system before using this product.

COLOR SYSTEM

When you set COLOR SYSTEM to AUTO, the AUTO mode automatically detects the receiving signal system and adjusts the reception system of the TV set.

When the picture or sound is not stable, set a specific COLOR SYSTEM (not AUTO). The picture and sound may be improved.

## **Adjusting the PRESET Settings**

1 Press **MENU** to display the MENU screen.

- 2 Press ▲/▼ to move the cursor to PRESET.
- **3** Press **◄/**▶ to enter.

- 4 Press ▲/▼ to move the cursor to the desired item.
- **5** Press **◄/▶** to change the setting.
- **6** Press **MENU** to return to the main screen.

Selected item	Factory setting	Setting options
BRIGHTNESS	[BRIGHT] Maximum brightness	<ul> <li>[NORMAL] Brightness 60% → Suitable for viewing in a well-lit area. Saves energy.</li> <li>[DARK] Brightness 10% → Sufficiently bright when viewing in a dimly lit area.</li> </ul>
AUTO POWER OFF (only TV mode)	[OFF]	[ON] The power of the LCD TV set is turned off when there is no signal for 5 minutes.  [OFF] This feature is inactive.

#### **SET UP**

#### **■ CHANNEL SETTING**

It is necessary to set the receiving mode to AIR or CABLE channels to receive locally broadcast TV programs.

- 1 Press MENU to display the MENU
- 2 Press ▲/▼ to move the cursor to SET UP.
- **3** Press **◄/▶** to enter.

- **4** Press ▲/▼ to move the cursor to CH-SETTING.
- **5** Press **◄/▶** to enter.

- 6 Press ▲/▼ to move the cursor to AIR/CABLE.
- **7** Press **◄/▶** to enter.

- 8 Press ▲/▼ to move the cursor to the desired mode.
- **9** Press **MENU** to return to the main screen.

#### NOTE )

 Receivable channels of your TV set are: AIR channels:

VHF: 2 through 13. UHF: 14 through 69.

CABLE channels: 1 (HRC and IRC mode only) 2 through 125 (STD, HRC and IRC)

## **SET UP (Continued)**

#### Saving broadcast TV channels in the memory

- 1 Press MENU to display the MENU screen, press ▲/▼ to move the cursor to SET UP, and press ◄/► to enter.
- 2 Press ▲/▼ to move the cursor to CH-SETTING, and press ◄/► to enter.
- 3 Press ▲/▼ to move the cursor to CH SEARCH, and press ◄/► to enter.
- 4 Press ▶. The tuner will search through all available channels in your area and add them to the TV's memory.

#### NOTE

- To interrupt CH SEARCH, press <.
  CH SEARCH will stop at the current channel and will not add any higher channels.
- **5** Press **MENU** to exit.

### ■ Adding weak or additional channels or erasing unwanted channels from TV memory

- Press MENU to display the MENU screen, press ▲/▼ to move the cursor to SET UP, and press ◄/▶ to enter.
- 2 Press ▲/▼ to move the cursor to CH-SETTING, and press ◀/▶ to enter
- 3 Press ▲/▼ to move the cursor to CH MEMORY, and press ◀/▶ to enter.
- 4 Use ▲/▼ or Channel Select to select each desired channel to add or erase.
- Press ► to add the channel to the TV's memory or press to erase the channel from the TV's memory.
- 6 Press MENU to exit.

NOTE >

· If CH SEARCH is performed again, the previously memorized channels will be lost.

## **Adjusting the BLUE SCREEN Settings**

#### **■ BLUE SCREEN**

Automatically turns the screen blue if a broadcast signal is not received.

- 1 Press MENU to display the MENU screen
- 2 Press ▲/▼ to move the cursor to SET UP.
- **3** Press **◄/▶** to enter.
- 4 Press ▲/▼ to move the cursor to BLUE SCREEN.

MENU ●SLEEP TIMER ■VIDEO ADJUST ■PRESET

SELECT:

©CLOSED CAPTION⊳

- **5** Press **◄/▶** to select ON or OFF.
- 6 Press MENU to return to the main screen.

ADJUST:

EXIT: MENU

#### NOTE >

- When received signals are weak or interfered with by some other signals, the BLUE SCREEN function may be activated. To watch the TV under such conditions, set BLUE SCREEN to OFF.
- When the AV-1, AV-2 or COMPONENT input mode is selected, if no signal is being input, the BLUE SCREEN function is activated.

## Adjusting the CLOSED CAPTION Settings

#### ■ SETTING CLOSED CAPTION

- This TV set is equipped with an internal Closed Caption decoder. "Closed Caption" is a system which allows conversations, narration, and sound effects in TV programs and home videos to be viewed as captions on the TV screen (see the illustration).
- Not all programs and videos will offer closed captioning. Please look for the "CC" symbol to ensure that captions will be shown.
- The Closed Caption broadcasts can be viewed in two modes: CAPTION and TEXT. For each mode, two channels are available: CH1 and CH2. The CAPTION mode shows subscripts of dialogs and commentaries of TV dramas

and news programs while allowing a clear view of the picture. The TEXT mode displays various information over the picture (such as TV program schedules and weather forecasts, etc.) that is independent of the TV programs.

#### Directly setting the CLOSED CAPTION

- Press CC to display the CC/TEXT screen.
- **2** Press **CC** to change the setting.  $\rightarrow$  OFF  $\longrightarrow$  CC 1  $\longrightarrow$  CC 2  $\longrightarrow$  T1  $\longrightarrow$  T2

#### NOTE >

 CC1: CAPTION mode for CH1 data CC2: CAPTION mode for CH2 data TEXT mode for CH1 data TEXT mode for CH2 data

#### NOTE >

- If a broadcast has CLOSED CAPTION and MUTE is pressed, the set enters CAPTION mode automatically. Pressing **MUTE** again will return the set to its previous condition.
- · Closed Caption may malfunction (white blocks, strange characters, etc.) if signal conditions are poor or if there are problems at the broadcast source. This does not necessarily indicate a problem with your set.
- · If any button is pressed to call up the On-Screen Display while viewing a Closed Caption broadcast, the closed captions will disappear momentarily.
- If no TEXT broadcast is being received while viewing in the TEXT mode, the screen may become dark and blank for some programs. Should this occur, switch the Closed Caption mode to OFF.

## **Adjusting the CLOSED CAPTION Settings (Continued)**

#### ■ SETTING CLOSED CAPTION

# Setting the CLOSED CAPTION on the MENU screen

- 1 Press MENU to display the MENU screen.
- 2 Press ▲/▼ to move the cursor to CLOSED CAPTION.
- **3** Press **◄/▶** to enter.
- 4 Press ▲/▼ to move the cursor to CC/TEXT.

Fress ◀/▶ to change the CLOSED CAPTION setting.

 $\longrightarrow$  OFF  $\longrightarrow$  CC 1  $\longrightarrow$  CC 2  $\longrightarrow$  T1  $\longrightarrow$  T2  $\longrightarrow$ 

**6** Press **MENU** to return to the main screen.

## **Adjusting the V-CHIP Settings**

#### ■ V-CHIP

- This function allows TV programs to be restricted and TV usage to be controlled based on FCC data. It prevents children from watching violent or sexual scenes that may be harmful.
- Restriction of TV programs includes two ratings that contain information about the program: the MPAA rating and the TV Parental Guidelines. The MPAA rating is restricted by age. TV Parental Guidelines are restricted by age and content.
- Since a TV program may use either the MPAA rating or the TV Guidelines, both should be adjusted for complete control.

#### [1] MPAA RATING

RATI	NG	
G GENERAL AUDIENCES. All ages admitted.		GENERAL AUDIENCES. All ages admitted.
	PG	PARENTAL GUIDANCE SUGGESTED. Some material may not be suitable for children.
age	PG-13	PARENTS STRONGLY CAUTIONED. Some material may be inappropriate for children under 13.
base	R	RESTRICTED. Under 17 requires accompanying parent or adult guardian.
	NC-17	NO ONE 17 AND UNDER ADMITTED.
	Х	X is an older rating that is unified with NC-17 but may be encoded in the data of older movies.

#### MPAA RATING (examples)

#### Example 1:

PG-13 in the age-based rating is blocked, this will also automatically block the higher ratings R, NC-17 and X.

#### Example 2:

R in the age-based rating is blocked, this will also automatically block the higher ratings NC-17 and X.

#### NOTE >

· The MPAA rating is only age-based.

## **Adjusting the V-CHIP Settings (Continued)**

#### [2] TV PARENTAL GUIDELINES

			$\leftarrow$	content base	$\Rightarrow$	
	RATING	FV (Fantasy Violence)	V (Violence)	S (Sexual Situation)	L (Adult Language)	D (Sexually Suggestive Dialog)
	TV-Y (All children)	$\boxtimes$	$\boxtimes$	×	$\boxtimes$	$\boxtimes$
↑ age	TV-Y7 (Direct to Older Children)	×	$\boxtimes$	×	×	×
	TV-G (General Audience)		×	×	×	×
base	TV-PG (Parental Guidance Suggested)		×	×	×	×
•	TV-14 (Parents Strongly Cautioned)		×	×	×	×
	TV-MA (Mature Audience Only)		×	×	×	

☑: The content rating can be set, but this rating is not normally broadcast by TV stations.

X: The content rating can be set.

#### TV PARENTAL GUIDELINES (examples)

#### Example 1:

When TV-Y7 in the age-based rating is set to BLOCK, this will automatically block the higher ratings: TV-G, TV-PG, TV-14 and TV-MA. In addition, D, L, S, V and FV in CONTENT are automatically blocked unless you manually set BLOCK CONTENT.

#### 1. User setting

TV-Y		
TV-Y7	BLOCK	
TV-G	BLOCK	
TV-PG	BLOCK	
TV-14	BLOCK	
TV-MA	BLOCK	
BLOCK	CONTENT (D L S V F	V

#### 2. Block table

		FV	v	s	L	D		
age pase	TV-Y							
	TV-Y7							
	TV-G							
	TV-PG							
	TV-14							
	TV-MA							
	TV-Y7	Select block		auto- block				

#### Example 2:

When no item in the age-based rating is blocked, D in the content-based rating will be automatically blocked.

#### 1. User setting

#### 2. Block table

		- content base							
		FV	٧	s	L	D			
	TV-Y								
	TV-Y7								
age	TV-G								
base	TV-PG								
	TV-14								
11	TV-MA								
		1		auto-					

#### NOTE >

- Age-based ratings can be modified by the content-based ratings, but only in the combinations indicated by an X in the table above.
- · Choosing a lower age-based rating blocks the higher age-based ratings regardless of content rating settings.
- · If you set TV-Y and TV-Y7 to BLOCK, CONTENT will display all items.

## **Adjusting the V-CHIP Settings (Continued)**

#### **■ SETTING V-CHIP**

#### [1] MPAA RATING

1 Press **MENU** to display the MENU screen.

Press ▲/▼ to move the cursor to V-CHIP BLOCK, and press ◄/▶ to enter.

3 INPUT SECRET NO. will display. Input the 4-digit secret number by using **Channel Select**.

#### NOTE >

- When you input the secret number for the first time, press MENU to register. Otherwise, continue to step 4.
- 4 Press **◄**/**▶** to move the cursor to MPAA, and press **◄**/**▶** to enter.

Fress ▲/▼ to move the cursor to PG, and then press ◄/► to select BLOCK. If you set PG to BLOCK, PG-13, R, NC-17 and X are automatically blocked.

**6** Press **MENU** to return to the main screen.

#### NOTE

- If you set G to BLOCK, all ratings are automatically blocked.
- If you set X to BLOCK, G, PG, PG-13, R and NC-17 are not blocked.

## **Adjusting the V-CHIP Settings (Continued)**

#### [2] TV GUIDELINES

Setting TV GUIDELINES

- 1 Repeat steps 1 to 3 of [1] MPAA RATING. (See page 34.)
- 2 Press ▲/▼ to move the cursor to TV GUIDELINES.
- 3 Press **◄/▶** to enter.

4 Press ▲/▼ to move the cursor to TV-Y7, and press ◄/► to select BLOCK. If you set TV-Y7 to BLOCK, TV-G, TV-PG, TV-14 and TV-MA are automatically blocked. In addition, D, L, S, V and FV in CONTENT are automatically blocked.

TV GUIDELINES

**5** Press **MENU** to return to the main screen.

### Setting BLOCK CONTENT

Press ▲/▼ to move the cursor to BLOCK CONTENT, and press ◄/▶ to enter.

Press ▲/▼ to move the cursor to the desired item, and press ◄/► to select BLOCK or ---- (unblock).

BLOCK CONTENT
PRETURN
D [----]

L [BLOCK]
S [----]
V [----]
FV [----]

3 Press MENU to return to the main screen.

#### NOTE >

 If you set TV-14 to BLOCK, TV-MA is automatically blocked. Contents D, L, S and V are automatically blocked by X in the table on page 33.

## **ADJUSTMENT (Continued)**

## **Adjusting the V-CHIP Settings (Continued)**

#### **[3] ACTIVATING V-CHIP BLOCK**

Setting STATUS

You can activate V-CHIP BLOCK after setting [1] MPAA RATING and/ or [2] TV GUIDELINES.

- 1 Repeat steps 1 to 3 of [1] MPAA RATING.
- **2** Press ▲/▼ to move the cursor to STATUS.
- **3** Press **◄/▶** to set STATUS to ON.

#### NOTE

- If STATUS is set to OFF, V-CHIP BLOCK will not be activated.
- 4 Press MENU to return to the main screen.

### [4] CANCELING THE V-CHIP BLOCK SCREEN WHILE V-CHIP BLOCK IS ACTIVATED

1 V-CHIP HAS BEEN ACTIVATED appears if you watch a program with the same Program Rating data you configured.

### NOTE

- V-CHIP HAS BEEN ACTIVATED will not be displayed if STATUS is not configured to ON.
- 2 Press MENU to display INPUT SECRET NO.
- 3 Input the 4-digit secret number by using Channel Select; V-CHIP BLOCK is temporarily canceled. If you input an incorrect secret number, SECRET NO. IS INCORRECT is displayed. In this case, input the correct secret number.

#### NOTE

- If you turn the power on from off, V-CHIP BLOCK will be activated again.
- If you select V-CHIP BLOCK again by using MENU, V-CHIP BLOCK will be turned on again.

## **ADJUSTMENT (Continued)**

## **Adjusting the V-CHIP Settings (Continued)**

### [5] CHANGING THE V-CHIP BLOCK SETTINGS

- 1 Repeat steps 1 to 2 of [1] MPAA RATING, then INPUT SECRET NO. will be displayed.
- 2 Input the 4-digit secret number by using **Channel Select**; the V-CHIP select mode will be displayed. Set V-CHIP BLOCK again.

### [6] CHANGING OR CLEARING THE SECRET NUMBER

If you forget the secret number, clear the secret number as follows.

CH (^) | WENU

- 1 Repeat steps 1 to 2 of [1] MPAA RATING, or 1 to 2 of [4] CANCELING THE V-CHIP BLOCK SCREEN WHILE V-CHIP BLOCK IS ACTIVATED, then INPUT SECRET NO. will be displayed.
- 2 Press and hold both CH (^) and VOL (+) on the TV set simultaneously until the message INPUT SECRET NO. blinks.
- 3 Press MENU to exit.

## CONNECTING WITH EXTERNAL DEVICES

You can enjoy picture and sound by connecting a VCR or a home video game system to the terminals located on the rear of the TV set.

When connecting an external device, turn off the power of the main unit first to prevent any possible damage.

### Example of external devices that can be connected

## External devices that can be connected to AV-IN2 terminal

### <Example>

- VCR
- · Laser disc player

## External devices that can be connected to AV-IN1 terminal

#### <Example>

- Video camera
- · Home video game system

 If your external device has an S-Video terminal, S-VIDEO connection is recommended.

# External devices that can be connected to COMPONENT terminal

#### <Example>

· DVD, etc.

\* If your external device has a component terminal, COMPONENT connection is recommended (you can view high-quality pictures).

#### NOTE >

- PC connection is not possible.
- For the cable, use a commercially available audio/video cable.
- Only connect audio/video signals to AV-IN1 and 2 terminals. Connecting other signals may result in a malfunction.
- AV-IN1 has 2 video input terminals: VIDEO and S-VIDEO. When you connect external devices to both terminals
  (and if you select AV-IN1), you can only view pictures from the S-VIDEO terminal. To view the picture from the
  VIDEO terminal, do not connect any external device to the S-VIDEO terminal.
- · For more information about external device connections, see the manuals of your external devices.

## **CONNECTING WITH EXTERNAL DEVICES (Continued)**

## Connecting a VCR, DVD player or a video camera (AV-IN1/2/COMPONENT)

#### NOTE

- If your VCR (or other external devices) has an S-Video terminal, S-VIDEO connection is recommended. (Use an S-Video cable.)
- When you connect external devices to both S-VIDEO and VIDEO terminals (and if you select AV-IN1), you can only view pictures from the S-VIDEO terminal.
- You cannot view multiple or synthesized pictures by connecting two or more external devices. When connecting
  an external device, use care to connect the video and audio cables to the corresponding terminals.
- · Do not connect antennas or headphones to AV-IN1.

## **CONNECTING WITH EXTERNAL DEVICES (Continued)**

## Outputting video and audio (video output)

You can output video and audio data from the TV set through the AV output terminals (AV-OUT).

- When using as an OUTPUT terminal, select PRESET in the MENU and set AV2 IN/OUT to OUT. (See page 26.)
- The factory setting for AV2 IN/OUT is IN.

### NOTE

- AV2 has 2 OUT modes (see page 26).
- When using the S-Video input for AV-IN1, no video output will be made to the AV output terminal, but audio output will be made for connection to external audio systems.

### **How to Fix the Cables**

- Fix cables and cords with the attached cable clamp so that they do not get caught when mounting the cover.
- Connect the cables and cords after fixing the cable clamp.

# **TROUBLESHOOTING**

■ Before calling for repair service, check the following items for possible remedies to the encountered symptoms.

Remote control does not work.	Check the batteries of the remote control.     Make sure the remote sensor window is not under strong lighting.	8 8

## **TROUBLESHOOTING (Continued)**

#### **Antenna**

Problem	Check item
The picture is not sharp.	<ul> <li>The reception may be weak.</li> <li>The state of the broadcast may also be bad.</li> <li>Make sure the antenna is facing the right direction.</li> <li>Make sure the outside antenna is not disconnected.</li> </ul>
The picture moves.	
The picture is doubled or tripled.	Make sure the antenna is facing the right direction.     There may be reflected electric waves from mountains or buildings.
The picture is spotted.	There may be interference from automobiles, trains, high voltage lines, neon lights, etc. There may be interference between the antenna cable and AC cord. Try positioning them further apart.
There are stripes on the screen or colors fade.	<ul> <li>Is the unit receiving interference from other devices? Transmission antennas of radio broadcasting stations, transmission antennas of amateur radios and cellular phones may also cause interference.</li> <li>Use the unit as far apart as possible from devices that may cause possible interference.</li> </ul>

## ■ Cautions regarding use in high and low temperature environments

- When the unit is used in a low temperature space (e.g. room, office), the picture may leave trails or appear slightly delayed. This is not a malfunction, and the unit will recover when the temperature returns normal.
- Do not leave the unit in a hot or cold location. Also, do not leave the unit in a location exposed to direct sunlight or near a heater, as this may cause the cabinet to deform and the LCD panel to malfunction.
   Storage temperature: -4°F to +140°F (-20°C to +60°C)

### CALLING FOR SERVICE

For location of the nearest Sharp Authorized Service, or to obtain product literature, accessories, supplies, or customer assistance, please call 1-800-BE-SHARP.

### LIMITED WARRANTY

#### **END-USER LIMITED WARRANTY**

SHARP ELECTRONICS CORPORATION warrants to the first end user purchaser that this Sharp brand product (the "Product"), when shipped in its original container, will be free from defective workmanship and materials, and agrees that it will, at its option, either repair the defect or replace the defective Product or part thereof with a new or remanufactured equivalent at no charge to the purchaser for parts or labor for the period(s) set forth below.

This warranty does not apply to any appearance items of the Product nor to the additional excluded item(s) set forth below nor to any Product the exterior of which has been damaged or defaced, which has been subjected to improper voltage or other misuse, abnormal service or handling, or which has been altered or modified in design or construction.

In order to enforce the rights under this limited warranty, the purchaser should follow the steps set forth below and provide proof of purchase to the servicer.

To the extent permitted by applicable state law, the warranties set forth herein are in lieu of, and exclusive of, all other warranties, express or implied. Specifically, ALL OTHER WARRANTIES OTHER THAN THOSE SET FORTH ABOVE ARE EXCLUDED. ALL EXPRESS AND IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR USE, AND FITNESS FOR A PARTICULAR PURPOSE ARE SPECIFICALLY EXCLUDED. If, under applicable state law, implied warranties may not validly be disclaimed or excluded, the duration of such implied warranties is limited to the period(s) from the date of purchase set forth below.

Neither the sales personnel of the seller nor any other person is authorized to make any warranties other than those described herein, or to extend the duration of any warranties beyond the time period described herein on behalf of Sharp.

The warranties described herein shall be the sole and exclusive warranties granted by Sharp and shall be the sole and exclusive remedy available to the purchaser. Correction of defects, in the manner and for the period of time described herein, shall constitute complete fulfillment of all liabilities and responsibilities of Sharp to the purchaser with respect to the Product, and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise. In no event shall Sharp be liable, or in any way responsible, for any damages or defects in the Product which were caused by repairs or attempted repairs performed by anyone other than an authorized servicer. Nor shall Sharp be liable or in any way responsible for any incidental or consequential economic or property damage. Some states do not allow limits on warranties or on remedies for breach in certain transactions; in such states, the limits herein may not apply.

### LIMITED WARRANTY

## Consumer Electronics Products

## Congratulations on your purchase!

Sharp Electronics of Canada Ltd. (hereinafter called "Sharp") gives the following express warranty to the first consumer purchaser for this Sharp brand product, when shipped in its original container and sold or distributed in Canada by Sharp or by an Authorized Sharp Dealer:

Sharp warrants that this product is free, under normal use and maintenance, from any defects in material and workmanship. If any such defects should be found in this product within the applicable warranty period, Sharp shall, at its option, repair or replace the product as specified herein.

This warranty shall not apply to:

- (a) Any defects caused or repairs required as a result of abusive operation, negligence, accident, improper installation or inappropriate use as outlined in the owner's manual.
- (b) Any Sharp product tampered with, modified, adjusted or repaired by any party other than Sharp, Sharp's Authorized Service Centres or Sharp's Authorized Servicing Dealers.
- (c) Damage caused or repairs required as a result of the use with items not specified or approved by Sharp, including but not limited to head cleaning tapes and chemical cleaning agents.
- (d) Any replacement of accessories, glassware, consumable or peripheral items required through normal use of the product including but not limited to earphones, remote controls, AC adapters, batteries, temperature probe, stylus, trays, filters, belts, ribbons, cables and paper.
- (e) Any cosmetic damage to the surface or exterior that has been defaced or caused by normal wear and tear.
- (f) Any damage caused by external or environmental conditions, including but not limited to transmission line/power line voltage or liquid spillage.
- (g) Any product received without appropriate model, serial number and CSA/cUL markings.
- (h) Any products used for rental or commercial purposes.
- (i) Any installation, setup and/or programming charges.

Should this Sharp product fail to operate during the warranty period, warranty service may be obtained upon delivery of the Sharp product together with proof of purchase and a copy of this LIMITED WARRANTY statement to an Authorized Sharp Service Centre or an Authorized Sharp Servicing Dealer. In home warranty service may be provided at Sharp's discretion on any Sharp television with the screen size of 27" or larger and on any Sharp Over-the-Range Microwave Oven.

This warranty constitutes the entire express warranty granted by Sharp and no other dealer, service centre or their agent or employee is authorized to extend, enlarge or transfer this warranty on behalf of Sharp. To the extent the law permits, Sharp disclaims any and all liability for direct or indirect damages or losses or for any incidental, special or consequential damages or loss of profits resulting from a defect in material or workmanship relating to the product, including damages for the loss of time or use of this Sharp product or the loss of information. The purchaser will be responsible for any removal, reinstallation, transportation and insurance costs incurred. Correction of defects, in the manner and period of time described herein, constitute complete fulfillment of all obligations and responsibilities of Sharp to the purchaser with respect to the product and shall constitute full satisfaction of all claims, whether based on contract, negligence, strict liability or otherwise.
